This matter is before the Court upon Plaintiff Nico Redding's objections to Chief United States Magistrate Judge Raymond L. Erickson's Report and Recommendation dated February 15, 2008, recommending that: (1) Redding's claims against Defendant Joanne Paulson be dismissed, for failure to effect service of process, but without prejudice; (2) the Motion of the CMS Defendants to Dismiss be granted, but without

prejudice; (3) the Motion of the State Defendants to Dismiss be granted in part, except for the following claims, which should be allowed to proceed: (a) Redding's Eighth Amendment claims against Jones, Knott, Opsahl, Pohlmann, and Schleis, for intentional interference with prescribed medical treatment; (b) Redding's MHRA claim against Jones for sexual harassment; (c) Redding's Eighth Amendment claim against Johnson for delay of medical treatment; (d) Redding's Fourteenth Amendment claim against Schleis, for denial of equal protection under the law.

The Court has conducted a *de novo* review of the record, including a review of the specific objections of Plaintiff, as well as the submissions of opposing counsel, pursuant to 28 U.S.C. § 636(b)(1) and Local Rule 72.2(b). The factual background for the above-entitled matter is clearly and precisely set forth in the 63-page Report and Recommendation and is incorporated by reference for purposes of Plaintiff's objections.

Based upon the *de novo* review of the record and all of the arguments and submissions of the parties, including the specific objections of the Plaintiff, and the Court being otherwise duly advised in the premises, the Court hereby enters the following:
